IT CONSULTANT INFRASTRUCTURE DEVELOPMENT (M/F)

ABOUT EDUCARO

Educaro offers first-class language education and international transfer of students with an outstanding customer experience. With offices in Europe and North Africa, we are the first contact for pupils and students, that are interested in studying in Germany. Teamwork is of highest importance for us, only as an ambitious team we can reach high goals. That's why we are searching YOU as an IT Consultant specialized on Infrastructure Development (m/f) at Educaro. Did we raise your interest?

YOUR TASKS

- First contact for the realization of digital components in different departments of the company
- Conception & Development of IT systems to digitalize operative workflows
- Utilization of latest technologies (i.a. Node.JS, Electron.IO, PhoneGap, AngularJS) for the development of web-, desktop- and mobile-apps as well as server applications
- Analysis of existing systems to optimize the operative efficiency of everyday business
- Support of the marketing team in design-conception to create appealing marketing content

YOUR PROFILE

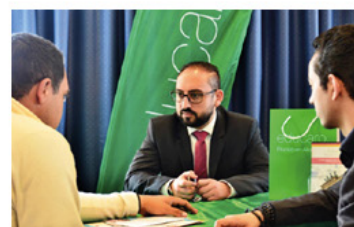

- You studied business informatics, informatics or a similar field of study
- Ideally, you have practical experience with application development as well as JavaScript, HTML5 & CSS3
- You are familiar with new products such as Node.JS, Electron.IO, PhoneGap and AngularJS
- You are characterized by high reliability and proactive operation
- You are motivated to significantly influence the digital infrastructure of a rapidly growing start-up
- You like to think conceptual-strategic and are equally enthusiastic to operationally conduct the implementation

WHAT WE OFFER YOU

- A wide range of interesting tasks in one of the most exciting german start-ups with excellent development opportunities
- Fast and direct reporting lines through direct collaboration with the company founders
- Completely independent project planning with predefined goals
- The opportunity to express your own ideas and significantly contribute to the success of our company

You are interested in an exciting culture, a dynamic work environment and a steep learning curve?
